Global Overview

United States:

The US stock market ended the day with slightly positive results, uncertainty about the possible result of the plan to reduce corporate taxes, which was released last week and considered crucial for further economic growth. In more detail, the plan is to cut the corporate rate to 20% from 35%, the bill would eliminate many tax exemptions and is expected to face opposition from interest groups. In addition, the president of the EE Chamber, US, Paul Ryan, told Fox News Radio that the House tax bill cut corporate rates immediately, but the progressive reduction of interest rates would still be beneficial for businesses. In business news, the company Snap Inc. fell around -18.21% due to the loss of market share, also yesterday the company reported a slow growth of advertising revenue and lower than expected users. On the other hand, the videogame developer, Take-Two Interactive Software, grew +11.22 approximately, due to its high revenue forecasts for the holiday quarter. Finally, the price of gold rose around +0.54%, reaching a price of 1282 dollars per ounce.

Europe:

The European stock market closed with mixed results among its main indices. Regarding the English companies, one of the anti-corruption investigators in England said that the people involved in a case of bribery of the company "Rolls-Royce Holdings PLC" continue to be investigated after the US Department of Justice presented charges against five people, including two former executives of the company, a former employee and an executive of an international engineering consulting firm. The Rolls-Royce shares won after the company agreed to pay more than \$ 800 million in fines to the US, British and Brazilian authorities by January. Rolls-Royce has reported that it is cooperating with the authorities. In France, the luxury corporation LVMH (Louis Vuitton, Moët Hennessy) announced that there will be a reorganization of its executive team, starting by appointing the head of Fendi as the new CEO of Christian Dior. Pietro Beccari will replace Sidney Toledano. For its part, Toledano, who promoted the Dior brand in international markets, will take control of the Fashion Group, of LVMH; while, Pierre-Yves Roussel, director of Fashion Group, will become special advisor to Bernard Arnault, who is the main executive and majority shareholder of LVMH. In Spain, Banco Santander has proposed cutting 1,500 jobs after the purchase of "Banco Popular Español, SA", as reported by the Spanish news agency EFE. This reorganization could affect more than 2,000 employees.

Asia:

The Asian stock market ended today's session with mixed results among its main indices. This was due to the fact that, after solid purchases throughout the region on Tuesday, causing market indexes to reach multi-year highs, a muted overnight performance on Wall Street followed. A fact that happened in general in Asia was that the financial stocks were affected by doubts about the future of a tax revision to the United States. Thus, the Topix subindex of banks in Japan fell by 1%, causing (along with the recovery of the yen against the dollar, which took away exporters' international competitiveness) a 0.3% drop to the Nikkei 225 stock index. But there were markets that were able to generate profits, as was the case of Hong Kong and its Hang Seng index (+0.4%, reaching a maximum of 10 days intraday). The cause was that the China Literature company almost doubled its price on its first day of trading, amid the global frenzy over technology stocks. But, on the other hand, in addition to this fact, some analysts said that Chinese investors are cautious about the relatively tighter liquidity in the fourth quarter, as well as the tightening of financial regulations.
